THE STORY

FOUR SEASONED MUSICIANS. ONE LOUD MACHINE.

SUPERDRIVE isn't just a band — it's an adrenaline-fuelled power rock machine roaring out of Luxembourg. Formed by four seasoned musicians with deep roots in the European rock scene, the band has rapidly crafted a signature sound that's explosive, melodic, and unapologetically heavy.

Their music feels like a love letter to the golden age of rock — channelling the hook-heavy swagger of **Bon Jovi**, the sleazy punch of **Aerosmith**, the polished bombast of **Def Leppard**, and a touch of **Foo Fighters**, filtered through a thoroughly modern power-rock energy.

Their live presence has already earned them support slots for **Scorpions**, **Extreme**, and **The Gene Simmons Band (KISS)** — a big-stage stamp of approval that speaks for itself. Their 2025 breakthrough single "**Let Go**" surpassed 100,000 views on YouTube and took home the **Best Music Video Award** at the Trier Filmfest.

With new single "**How Does It Feel**" out now, a spring & summer 2026 tour underway, and a full-length album due in autumn, SUPERDRIVE are firing on all cylinders.

OUT MAY 4, 2026

A radio-ready anthem built around a huge chorus and soaring guitars — the second preview from SUPERDRIVE's forthcoming album. Beneath the glossy riffs lies a personal story: the song explores loss and the slow, deliberate work of rebuilding a life in its aftermath. Recorded and mixed at Holtz Studios by Charles Stoltz, mastered by Tom Gatti at Unison Studios.
